

Disruptors face disruption:

One month before a benami union of BSNLEU was registered with aim to disrupt NFTE-BSNL. Eighty year old Kholi was picked for this job by none other than Com. Abhimanhu of BSNLEU. That union instead of splitting NFTE-BSNL is now split in to two. One group led by Kholi support the BSNLEU and other group promised to support another union. That union had only four leaders as office bearers and now split in to two factions. Com. Abhimanhu and his friends are disappointed lot now because they have invested few lakh of rupees in to this project. The so called union of Kholi does not have a single branch in any part of the country. But some leaders are very much eager to get the support of these discredited leaders because they are already frustrated since no union worth the name has agreed to have alliance with them. NFTE-BSNL is marching ahead with eight major unions. However the false propaganda spread by BSNLEU and FNTTO that NFTE-BSNL split is now exposed.
