

FNTO leadership should think why it has not grown?- **Despite govt's support:**

The 05/01/2012 order issued by the BSNL management regarding informal meeting at circle level for unions with 15% or more support in verification has created panic among both the leadership & membership of FNTO. That is why they are writing many things which are with the sole aim of giving false hope for the members of FNTO so that they remain in FNTO. So far five verification were conducted in BSNL since December-2002 but in none of the verification FNTO could secure 15% of support although it existed for more than 40 years in P&T, DOT & BSNL. Various congress govts directly and indirectly supported FNTO since it was the creation of congress govt. But due to the pro management of FNTO leadership it could not grow anywhere in India except in Bengal and Kerala due to political situations there.

FNTO has no future in BSNL if 15% vote formula is accepted and second union is recognized as per the practice existing in NLC, BHEL and other CPSU's. Therefore we could understand the feelings of the FNTO leaders. Their demand to the management for extending recognition to FNTO will not be accepted at anytime because the management knows verywell that if it relaxes the 15% formula they have to recognize almost all unions in BSNL. Hence the management rightly opted for 15% formula instead of accepting the reality the leadership of FNTO unnecessarily provokes other unions including NFTE-BSNL with irresponsible and false writeup's.

We also come across a news that the leadership of FNTO is very frantically trying to form a third front with the support of R.K. Kholi, N.T.Sajwani and other people. We wish this news is false.

C.K.Mathivanan

CS, NFTE-BSNL
