

'National council' or 'Notional council'..?

The present strength of the National council is 15. But due to the resignation of 7 National council members the council now has become defunct. First FNTU union came out of the united forum and his 4 members resigned from the National council last month. Then, Protesting against the denial of the reservation for SC/ST employees in the recently announced promotional scheme the sole representative of SC/ST welfare association and its all India president Com P. Muthukrishnan resigned from the National council. Now another union of the united forum **“WORKERS RASTRIYA UNION”** has come out it and two of its National council members also submitted resignation. As of today (14/11/2008) out of 15 only eight members are in the National council. This shows the complete isolation and marginalization of present recognized union BSNLEU.
