

Great opportunity wasted?

The two day strike has ended without the settlement of any single demand of our employees. It has become a routine affair for the BSNLEU and JAC to go on strike and defer it without achieving anything.

Even the issue of 78.2% IDA merger for which already the government of India order was issued could not be settled. It shows the poor negotiating skill of the JAC leadership. Com. Namboodri and his friends will claim victory and celebrate as usual. However the real winner is the Government of India and the management of BSNL who could tackle the strike without agreeing to any demand of JAC and inflict two days wage cut on our employees.
